(Address withheld)

Re:    **WARNING NOTICE**  
      Amateur Radio License KJ9T  
      EB-FIELDNER-12-00004722

Dear Mr. Isom:

By letter dated October 22, 2012, the Commission notified you that it had received a complaint regarding the operation of your amateur station. The complaint alleged that you had been deliberately interfering with the operation of AM operators in an effort to run them off of the air in violation of Section 97.101(d) of the Commission's rules.

You responded to the Commission's letter on November 1, 2012. In that letter, you indicated that you had gotten involved in an "ongoing battle" with a group of east coast AMers. You acknowledged that you did inform the members of your "group" that if they deliberately caused interference to the AMers, that maybe the AMers "would move and leave us alone." You further concede that you did indeed engage in the prohibited behavior of causing deliberate interference to the group of AM operators. Finally, you state that you recognize that "two wrongs do not make a right," you apologize for your behavior and assert that this behavior will never happen again.

Your operation as described above is contrary to the basis and purpose of the amateur radio service as set out in Section 97.1 of the Commission's rules and is a violation of Section 97.101(d) of the Commission's rules.<sup>1</sup> Please be advised that the Commission expects you to abide by its rules. This letter serves as notice that, if operation of this type reoccurs after receipt of this letter, you could be subject to severe penalties, including license revocation, monetary forfeiture (fines),<sup>2</sup> or a modification

---

<sup>1</sup> See 47 C.F.R. §§ 97.1 and 97.101(d).

<sup>2</sup> Fines normally range from \$7,500 to \$10,000.

proceeding to restrict the frequencies upon which you may operate.

Sincerely,

Laura L. Smith, Esq.  
Special Counsel
